PERSONS ADDRESSING THE TOWN BOARD:

Mr. Richard Bulman, 24 Wildwood Drive, Lancaster, New York, spoke at some length with the Town Board concerning his views on citizen participation in the annual Town budget process and in disseminating information to the public on where the tax dollars are spent and where the revenues come from.

Mr. Bulman thought it would be a good idea if the Town could somehow come up with charts and graphs showing where revenues come from, where the money goes, how much it costs to run various departments and what various services cost the taxpayers.

As an example, Mr. Bulman pointed out that each year the Lancaster Central School District has included in their publication "Your Schools," various graphs, charts and comparisons which make it easier for the public to understand the school's financial matters.

The Town Board members and the Town Attorney indicated to Mr. Bulman, who is the chairman of the Research Committee of the Lancaster Republican Party, that his idea has merit and deserves consideration, however, they vehemently admonished him that no amount of charts, graphs or publications will be of any value to the public if the local Republican Party continues to take bits and pieces of selected information on Town fiscal matters and distorts them for their own personal political gain, which was recently evidenced by the distribution of a slinger by mail and a handout at local supermarkets, grossly distorting tax increase percentages and salary comparisons connected with the 1985 Budget.

Mr. Bulman indicated that in his position as chairman of the Research Committee of the Lancaster Republican Party, it is his job to only research the information for the Republican Committee and he is not the sole person who is responsible for determination of its ultimate use.
